Subject: oppose bank of Walmart

As a current employee at Walmart and seeing and hearing all lies told at store leve, I feel it would not be fair to offer American citizens that does not tell the truth. This would have a bad effect on all banks and Walmart would try to put them out of business. So please think of all the innocent people that will be hurt by this company. walmart has put many local stores out of business and this has truly hurt the community. This would give Walmart to much power and they bend rules and even break laws to cover up what they have done. I pray God will lead you to the right decision and keep Walmart out of banking.
